SKILLS

- Artificial Intelligence
- Machine Learning
- Python
- Vision Analysis

EXPERIENCE

FOUNDING ENGINEER

January 2024 - Present

Codin

- Identified potential challenges and developed contingency plans to minimize project disruptions.
- Tested and debugged code to ensure performance, scalability, reliability, and security of the application.
- Collaborated with other developers in a team environment to complete complex projects within tight deadlines.

CO-FOUNDER, CHIEF TECHNOLOGY OFFICER

US

Bloon.AI

October 2023 - February 2024

- Founded and actively developed Bloon.AI, a pioneering startup aimed at revolutionizing the educational technology landscape through innovative AI-driven solutions.
- Led the integration of cutting-edge AI algorithms to simplify complex educational content into understandable, engaging visual formats, setting a new standard in educational technology.
- Transitioned from my role within the core founding team after contributing significantly to the startup's initial development, following venture capitalists' preference for a team composition without high school students in foundational roles, demonstrating a commitment to the venture's success above personal position.

EDUCATION

Sierra Pacific High School, Hanford

Expected graduation Jun 2025
